RAJAN VASHISHT

Cloud and Platform Engineering | Site Reliability Engineering

+1 (312) 714-8512 | rajan612@gmail.com | LinkedIn | thedriftlog.com

PROFESSIONAL SUMMARY

Cloud and site reliability engineer with 8+ years of experience in AWS infrastructure, Kubernetes, and DevOps automation, backed by earlier experience in disaster recovery and systems support. Built automation that reduced tenant provisioning from 48 hours to 2 hours, cut database access tickets by 95%, and delivered $500K in annual infrastructure savings. Experience spans infrastructure as code, secure access, production support, and platforms for data science and machine learning.

TECHNICAL SKILLS

Cloud infrastructure: AWS EC2, RDS, S3, Lambda, VPC, ELB, Route 53, IAM, CloudTrail; ECS Fargate; AWS License Manager

Containers and platforms: Kubernetes, Amazon EKS, kOps, Helm, Docker; MLflow; Linux AMIs

Infrastructure and delivery: Terraform, AWS CloudFormation, Ansible, Jenkins, Bamboo, GitHub

Security and identity: AWS Network Firewall, Suricata, HashiCorp Vault, SSO, MFA, Okta, Azure AD, Active Directory, RBAC

Automation and operations: Python, Bash; Linux, RHEL, Ubuntu; New Relic; incident response, on-call support, backup and disaster recovery

PROFESSIONAL EXPERIENCE

AWS Cloud Engineer | Verisk

Aug 2025 - Present | Fairfax, VA

- Implemented tag-based domain and API egress controls for a platform supporting 600+ EC2 instances using AWS Network Firewall and Suricata; automated deployment through CloudFormation and Bamboo and coordinated regional cutover validation, rollback planning, and connectivity troubleshooting.
- Deployed a secure MLflow platform on ECS Fargate with Aurora PostgreSQL, internal load balancing, DNS, and TLS; partnered with identity stakeholders to integrate Okta SSO and configured sandbox RBAC and service-account permissions for model ingestion and read access.
- Automated Windows environments for Office and Adobe using AWS License Manager, AWS Managed Microsoft AD, CloudFormation, and Bamboo.
- Built and maintained golden Linux AMIs with preinstalled tools for data scientists, and troubleshot Linux permissions, SSH connectivity, storage, and development environments.

Site Reliability Engineer | Vibrent Health

Jun 2019 - Aug 2025 | Fairfax, VA

- Deployed stateless Kubernetes workloads on Spot Instances, delivering $500K in annual savings across environments.
- Built a Python onboarding bot in Slack that reduced tenant provisioning time from 48 hours to 2 hours, improving operational efficiency by over 90%.
- Implemented self-service temporary RDS access using the HashiCorp Vault database secrets engine, reducing access request tickets by 95%.
- Automated shutdown of non-production RDS instances during weekends and off-hours with AWS Lambda, reducing monthly costs by 35%.
- Integrated Snowflake with Azure AD SSO and MFA for 200+ user accounts, strengthening access controls.

Associate Infrastructure Engineer | DealerSocket

2018 - 2019 | Irving, TX

- Automated provisioning of 50+ EC2 instances with AWS CloudFormation, reducing setup time by 70% and improving deployment consistency.
- Built and managed pre-production environments with Active Directory and Microsoft SQL Server for 10+ critical applications.
- Provided after-hours production on-call support, resolving 95% of incidents within SLA.

Disaster Recovery Expert | Arvato Bertelsmann

2014 - 2016 | Gurugram, India

- Resolved 100+ escalated Acronis backup and disaster recovery issues monthly across Windows, Linux, VMware ESXi, and Hyper-V, improving resolution time by 50%.
- Supported 100+ partners and VIP users weekly with backup and recovery troubleshooting to support business continuity.

Senior Analyst | Nokia via HCL Infosystems

2011 - 2013 | Gurugram, India

- Supported desktop and server environments for 200+ users; troubleshot VPN, Outlook, Lync, and Windows issues with a 95% first-time fix rate.

EDUCATION

Master of Science in Information Technology and Management

Illinois Institute of Technology | Chicago, IL | 2016 - 2018

Bachelor of Technology in Information Technology

Punjab Technical University | Punjab, India | 2005 - 2009

CERTIFICATIONS PREVIOUSLY EARNED

AWS Certified DevOps Engineer; AWS Certified Solutions Architect - Associate; AWS Certified SysOps Administrator - Associate; Certified Kubernetes Administrator; Certified Kubernetes Application Developer
